The State Trading Corporation of India Ltd. (STC) imports UREA, TECHNICAL GRADE UREA, DAP, MAP, MOP, SULPHUR, VARIOUS GRADES OF NPKS-COMPLEX FERTILIZERS, TSP, ZINC SULPHATE, SSP, ROCK PHOSPHATE, AMMONIUM SULPHATE, PHOSPHORIC ACID, AMMONIUM NITRATE and other types of fertilizers. STC is also one of the canalizing agencies appointed by the Government of India for import of Urea (on Govt. a/c). We regularly source fertilizers both in bulk and in containers loads from different countries. Every year, STC imports around 1-2 Million MT of fertilizers from all over the world.

STC intend to draw up a panel of Internationally Reputed Independent Third party Inspection Agencies/ Surveyors for undertaking Loadport Survey, Inspection and Analysis of different type of fertilizers as mentioned above in bulk as well as in container loads at various loadports all over the world. Existing empanelled inspection agencies for loadport inspection of Urea on Government account should also apply afresh against this EOI.

The EOI document can be obtained from the office of Sh. K.L. Malhotra, Manager (Marketing), 6<sup>th</sup> Floor Annexe, STC, Jawahar Vyapar Bhawan, Tolstoy Marg, New Delhi on written request on the letter head of the company and can also be downloaded from STC's websites i.e. [www.stclimited.co.in](http://www.stclimited.co.in) or [www.tenders.gov.in](http://www.tenders.gov.in) or [www.eprocure.gov.in](http://www.eprocure.gov.in). Corrigendum/ Addendum, if any shall be published only on these websites. Detailed terms and conditions shall be as per the document terms which are integral part of this Notice Inviting EOI.

## ANNEXURE - I

### DUTIES AND RESPONSIBILITIES OF INSPECTION AGENCIES

1. As and when required, Inspection agencies will carry out pre shipment inspection at the overseas loadports with a view to ensure that fertilizers offered for shipment is as per specifications stipulated in the purchase contracts entered into between STC and the suppliers.
2. Prior to commencement of loading, inspectors will inspect hatches, holds and the hatch covers to determine the suitability of vessel for carrying fertilizers.
3. The inspector will be present throughout loading period. Samples to be drawn as per procedure stipulated in FCO (Fertilizer Control Order), 1985 & amendments thereof from time to time and/or purchase contracts entered into between STC and the suppliers.
4. All sub lot samples should be thoroughly mixed and riffled to make a composite sample for the analysis. Part of the composite sample should be forwarded to STC/agency nominated by STC for records.
5. The sample will be analysed as per the International standard methods prescribed in the Purchase Contracts of STC and the Fertilizer (Control) Order 1985 (as per latest amendments).
6. For Bulk shipment, the weight of the cargo shall be determined through draft survey in association with the master of the vessel. The name of the agency conducting draft survey should be indicated. For bagged/containerized cargo, method of determining weight to be clearly spelt out in report.

#### 7. PREPARATION OF SAMPLES

Consolidation of increment samples into the gross sample and sample reduction by riffling shall be according to Procedure No. 3 II OS Page 49 of NPM Analytical Methods (Revised Edition).

#### 8. DISTRIBUTION OF OFFICIAL SAMPLES

The official sample obtained may be divided into 4 equal parts one part each by means of riffling that package of fertilizer obtained from all increments. One of the 4 parts is for analysis by the inspection agency, one to be made available to the seller upon request, and of the remaining 2 such parts one shall be retained by the inspection agency for a minimum period of 6 months for possible use by a reference chemist and one part is to be forwarded to STC/agency nominated by STC.

#### 9. ANALYSIS OF SAMPLES

The official sample obtained shall be analysed based on analytical method specified in the contract between buyers and the sellers. The results of analysis shall be made available promptly to the buyers and all others concerned including suppliers for negotiating documents through Bank. Analysis should be done by the inspection agency in their own Laboratory by qualified chemists.

#### 10. REPORT AND CERTIFICATION

Upon collection of analysis of the material for each shipment, certificate of inspection shall be issued by the Inspection Agency to the buyers and sellers. The inspection agency shall ensure that the

certificates are made available promptly by in any case not later than a period of 7 days from the date of sailing.
